New Bavelloni Branch in Brazil – Agreement signed

Bavelloni SpA are pleased to announce the signing of an agreement with **Mr. Teodoro Baldassarre** for the opening of a new branch in Brazil.

The new subsidiary will be responsible for consolidating and developing the sales of new machines and tools in the Brazilian market, as well as providing on-site service support.

Teodoro Baldassarre will be appointed Branch Director; thanks to his extensive experience in the glass industry and in the Brazilian market, he will play a key role in the success of the new business.

The establishment of the Brazilian branch is part of a growth process initiated a few years ago with the opening of two other sites, one in the USA and the other in Mexico, and represents a milestone towards strengthening the presence of the Bavelloni brand in the world.

Bavelloni SpA provides glass processing technology and services for the architectural, furniture and domestic appliance and solar industries. During over 70 years of operation, we have delivered more than 25.000 glass processing machines to more than 100 countries. Our extensive range includes CNC machines and technologies for cutting, edging, beveling, drilling/milling as well as spare parts for our machinery and a wide range of diamond and polishing tools. Since June 2019, Bavelloni SpA is the majority shareholder of Yalos Bavelloni, a company specialized in the production of high-end horizontal and vertical washing machines for flat glass that integrate and complement the Company's offer. Our machines are available as standalone solutions as well as integrated lines.
